

Says

What have we heard them say?
What can we imagine them saying?

It is very useful
to know the
price details
about crops.

It helps to
understand the
knowledge about
the impact of
climate change in
agricultural crops.

It helps to
improve the
education
about crops

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Thinks

They know
the price
details in
correct
situations

They know
the more
details
about
crops

They know
the climate
change in
correct
situations

Indias's Agricultural
Crop Production
Analysis

They planned
to plant the
correct crops
in correct
times

They know
the correct
weather
conditions

They know the
knowledge
about
agricultural
cropping.

They fear
about climate
changing
period

They frustrate
about the low
prices of their
products in
high yield
situation
period.

They fear
about the
unknown
diseases of
crops.

Does

What behavior have we observed?
What can we imagine them doing?

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
